Free webinar

Registration deadline
August 16th, 2021

Get familiar with DNAXs

Join a series of demonstrations of the DNAXs software, including new features, such as:

- ✓ Optimization of DNASatistX
- ✓ Reporting in DNAXs
- ✓ Improved connectivity to other forensic applications

Intended audience

Scientists active in forensic DNA analysis and interested in using DNAXs to aid in profile comparisons and evaluation of mixed DNA profiles. The presentations will be aimed towards an audience with experience in DNA profile interpretation and statistical calculations.
